

# Empowering Data Center Performance

## Connecting Data Centers At The Cutting Edge

In the rapidly evolving digital world, the heart of operations lies in the functionality of data centers combined with the speed and efficiency of edge computing. Ensuring seamless, high-speed data management and faster speed-to-market can be complex, but not with NextEra Infrastructure Solutions. We integrate cutting-edge fiber-optic technology and edge computing capabilities to address challenges related to bandwidth limitations, network latency, energy efficiency and deployment speed.

### Enabling The Need For Speed

The surge in remote work, cloud-based services, internet usage, and emerging disruptive technologies such as artificial intelligence (AI) and machine learning, is causing an unprecedented demand for advanced, lightning-fast data centers. To meet this, NextEra Infrastructure Solutions presents a robust, reliable and rapidly scalable infrastructure that effectively handles gigantic data flows.

Our comprehensive solution offers more than just high-speed fiber connectivity. With edge computing capabilities, we can handle large data flows reliably and scalably, either as a standalone solution or combined with traditional DCS for added resilience. Cost-effective leasing models cover fiber, power, and land, and/or compute tailored to your specific requirements. By leveraging our services, you can reduce data processing latency and speed up your time-to-market with prompt and reliable solutions.

### Why Choose Us:

- » Industry-leading reliability and performance with our fiber solutions
- » Provide reliable, high-speed, low-latency service to all users
- » Utilization of renewable energy sources
- » Expertise in network design and maintenance guaranteeing optimal uptime
- » End-to-end solutions including design, deployment, and support
- » High-speed connectivity enabling seamless operations
- » Tailored solutions to cater to individual business needs

 **High-speed, massive bandwidth capacity**

 **Fiber, power and land leasing**

 **Enhanced speed-to-market**

 **Comprehensive end-to-end support**

Contact us today to find out how NextEra Infrastructure Solutions can propel your data center towards a future of unparalleled performance and efficiency.

NextEra Infrastructure Solutions is a workgroup of affiliates of NextEra Energy, including NextEra Energy Solutions, LLC, NextEra Lighting & Metering Solutions, LLC, NextCity Networks, LLC, Gexa Energy Solutions, LLC, and FPL Energy Services, Inc., that offers unregulated, commercial fiber, lighting, and smart meters solutions for developments, utilities, municipalities, and commercial businesses.
